

VPTC Awards 2016

Builders

Clive MacRaid

Among his many contributions, Clive was Vice President in 2008/09 and President in 2009/10. In 2015 Clive became the first person to ever agree to volunteer for a second term as Vice President and then President of the Club. Due to unforeseen circumstances, Clive has had to function both as Vice President and President for the latter half of this year.

Ginger Yoder

For many years Ginger has sold “gently used” clothing and tennis equipment at our tournaments. Ginger’s sales tables have been a source of excellent buys not only for our club members, but also for our East Valley visitors on tournament days. While some of the proceeds from sales went back to owners of donated goods, every year the Club also received funds.

Kathy Johnson

Kathy’s leadership and volunteer commitment for more than seven years as captain and co-captain is much appreciated. Her enthusiasm and energy have been great assets to the Board and the Club.

Sue Twyman

Sue has served many years as a captain and co-captain. She has been such a great role model, especially for our newer players. Her long-standing volunteer commitment to the club is exceptional.

Jim Gerhardt

Jim was Vice President 2007/08 and President 2008/09. He has also captained teams for eight years. His exceptional volunteer commitment to VPTC is appreciated.

Annual Inspirational

Gail Hagert

Gail is given this award in recognition of her time, ingenuity and landscaping expertise in creating what is now known as: “Gail’s Garden”. Gail must have a magical way of motivating people – and I am sure that she would join me in asking all of “Gail’s Gardeners” to stand and be recognized for the time and effort they also put into this project.

Ben Wilford

Ben’s IT skill and knowledge led to the successful introduction of the online court reservation system. He also spends a lot of time and effort managing the Club website.

Judy and Ken Gamble

Judy and Ken gave outstanding service as the first directors of the 2015 Holiday Mixed tournament. This event takes months of planning and even though the weatherman didn’t get it quite right this past year, it was a very successful event thanks to their leadership.
